Spring 2014

Dear Parents,

Beginning this summer, in our continuous efforts to provide the best possible care to our campers and staff, Kingswood Camp is partnering with CampDoc.com.

CampDoc.com is an electronic health record system for camps, and will help us consolidate and integrate camper health information into a centralized and secure location. Their system will give our nurses instant access to camper health information, a key component in providing quality patient care.

The security, confidentiality and privacy of your camper's personal health information will always be protected. Only Kingswood Camp's health staff will have access to camper health information, and the CampDoc.com site is secure, encrypted and password protected.

You will receive a "Welcome E-mail" from CampDoc.com with information about how to complete your camper's health information.

- Click the link in this welcome email to set a new password for your CampDoc.com account.
- Follow the instructions, and complete the health history for your camper. Alerts will appear for any missing required information.
- Upload any required documents to your CampDoc.com account.
- Return to CampDoc.com at any time to make changes/updates to your camper's health information before camp begins.

Please set register@campdoc.com as a 'safe sender,' to avoid accidental delivery to junk and spam folders.

CampDoc.com is user friendly and has stellar technical support, should you have any questions or concerns. We welcome your feedback as we embark in this process. We are excited to continually evolve – building safer, more productive and more efficient camp experience.

Can't wait to see you this summer!

Rob & Becky Wipfler
